EAPS MEETINGS & EVENTS

EAPS Faculty/Staff Retreat 3:00-5pm Aug. 24, 2021

Hybrid In-Person AND Virtual Welcome Back One Minute Research Madness Social 3:30-5:00 pm Aug. 26, 2021

Faculty Meetings (3:30-5pm, Executive Committee 3-3:30pm)

- 14 September
- 26 October
- 9 November
- 7 December

Primary Committee 3-5pm Associate and Full Professors) Sept. 28, 2021

[PURDUE CALENDAR](#) 2021-22
Fall Semester Begins TODAY!

OUTREACH NEWS

Wonder what K-12 Outreach does in the summer?

This summer (May-July) we released 16 Superheroes of Science "Science from the Experts" Episodes, posted 34 educational related videos on our [Youtube channel](#), collaborated on 7 grants and facilitated teacher professional developments that had a total attendance of 319 teachers attending live Webex presentations. Social media impact

included a reach of 57,247 from social media posts. Additionally, there were 1,123 downloads of audio podcasts and 4,244 views on the SoS YouTube channel.

We are lining up more interviews, planning in person AP Friday's and working on other virtual and in person outreach events for the fall.

Superheroes of Science is always looking for interesting science to share.

If you would like to share an aspect of the science you are researching, contact [Steven](#) to set up an interview. Please consider subscribing, liking, and sharing videos for the channel.

Outreach has a number of programs to help you with your broader impacts and engagement activities.

The Purdue University Superheroes of Science Podcast is on most podcast players as well as [YouTube!](#)

DEPARTMENTAL NEWS AND OPPORTUNITIES

CALL FOR ABSTRACTS & REGISTRATION OPEN- USRA/LUNAR & PLANETARY INSTITUTE

[Venera-D: Venus Cloud Habitability System
Workshop](#)

November 29--December 3, 2021

Virtual

The Venera-D: Venus Cloud Habitability System Workshop will be delivered as a virtual meeting.

Call for Abstracts

Abstract submission deadline -- September 30, 2021, 5:00 p.m. U.S. Central Daylight Time (GMT -5) If you plan to submit an abstract, please respond to the following survey. The purpose of this survey is to help structure the workshop program.

The survey deadline is August 30, 2021.

Registration

No registration fees are being collected for this meeting, but registration is required for communication and planning purposes.

Registration deadline -- November 23, 2021.
Registered participants will receive an e-mail from Houston Meeting Info prior to the meeting with virtual connection information.

LUNAR SURFACE SCIENCE WORKSHOP
[Landing Sites and Capabilities](#)
[for Future CLPS Deliveries](#)

November 18, 2021, Virtual

This LSSW session will solicit input from the community on high-priority landing sites for upcoming CLPS deliveries. The overall goal of this session is to build upon previously identified landing sites of high scientific value for near-term CLPS deliveries and identify new strategic targets. Science conducted at these sites should answer outstanding science questions as outlined in the Planetary Decadal Survey and key community documents (e.g., the Artemis III Science Definition Team Report, 2018 NASA Strategic Plan, the Scientific Context for the Exploration of the Moon, LEAG Advancing Science of the Moon Strategic Action Team Report, etc.).

Call for Abstracts

Abstract submission deadline -- October 8, 2021, 5:00 p.m. U.S. Central Daylight Time (GMT -5)

Abstracts are solicited for presentations and posters describing target areas on the Moon for in-situ science, network science, and sample return missions. Concepts that require or utilize campaign science (i.e., multiple landings), especially those that build up to crewed Artemis landings and beyond, may also be described. Registration deadline: November 15, 2021
Registration fees are not being collected for this LSSW virtual session, but registration is required to continue receiving e-mail updates. Registered attendees will receive an e-mail from Houston Meeting Info with connection information.

DECADAL SURVEY ON BIOLOGICAL & PHYSICAL SCIENCES RESEARCH IN SPACE 2023–2032

The Decadal Survey on Biological and Physical Sciences Research in Space 2023–2032 is now accepting white papers. White papers can either be "topical" and focus on a single research area, scientific investigation, or experiment, or be for "research campaigns" that address broad or large-scale goals and can span multiple topics or research disciplines. Of particular interest is "[transformative research](#)" for ideas, discoveries, or tools that radically change our understanding of an important existing scientific or engineering

concept or that lead to the creation of a new paradigm or field of science or engineering.

The National Academies of Science, Engineering and Medicine (NAEM) has released this call for white papers and the white papers will contribute to the development of their report for the next [Decadal Survey on Life and Physical Sciences Research in Space 2023-2032](#). These white papers serve as the input from the scientific community into the decadal survey. The report will be used by the Science Mission Directorate of the National Aeronautics and Space Administration (NASA) to provide the framework for the vision, priorities, and strategic plan and budget for NASA's research efforts in the area of biological and physical sciences in reduced gravity environments.

The [call for 2- to 5-page white papers](#) have the following due dates:

- "Topical" white papers should be received by **October 31, 2021**.
- "Research Campaign" white papers should be received by **December 23, 2021**.

Information about past microgravity materials science research conducted aboard the International Space Station (ISS) may be found at [A Researcher's Guide to Microgravity Materials Research](#).

The most recent decadal survey was entitled "[Recapturing a Future for Space Exploration: Life and Physical Sciences Research for a New Era](#)," which was subsequently followed by "[A Midterm Assessment of Implementation of the Decadal Survey on Life and Physical Sciences Research at NASA](#)."

WORKSHOP ANNOUNCEMENT

[2021 Community Workshop on Astromaterials Data Management in the Era of Sample Return Missions](#)

November 8--November 9, 2021

Virtual/Tucson, Arizona

The workshop will provide an opportunity to present and discuss all the current projects and initiatives for astromaterials sample tracking and data management. The workshop is opened to all members of the scientific community. It will bring together researchers, scientists, and software engineers working on systems to track samples between curation and sample scientists, and the management, visualization and

archiving of datasets resulting from the analysis of planetary materials. Those include both mission-returned samples and astromaterials (meteorites, micrometeorites, and interplanetary dust particles). The organizers invite contributions spanning all these related topics, including data management for past (e.g., Apollo), current (e.g., Hayabusa2, OSIRIS-REx, ANGSA and Chang'e 5), and future (e.g., Mars Sample Return, MMX) sample-return missions.

Important: To be added to the mailing list to receive pertinent information about this workshop and to indicate your interest in participating, **please submit an Indication of Interest by August 31, 2021, 5:00 p.m. PDT.**

SCHOLARSHIP OPPORTUNITY - SWANA

SWANA, a solid waste disposal organization has statewide scholarships available to college students. Applicants must be student members of the organization but membership is free. [For more information.](#)

EAPS GRAD STUDENT RESEARCH OPPORTUNITIES

If you are interested in an EAPS grad research opportunity, [click here](#) for more information.

MS AND PHD EAPS STUDENTS BROADEN YOUR GRAD EXPERIENCE

For those MS and PhD students in EAPS that would like to broaden their graduate experiences while at Purdue, EAPS is affiliated with the Computational Interdisciplinary Graduate Programs (CIGP) at Purdue. While working toward a graduate degree in EAPS, graduate students can also have a concentration (specialization) in the area of Computational Science and Engineering (CSE). For more information, [click here](#). A short video about the CIGP/CSE program can be found [here](#).

Fall Application Deadline: October 1
Spring Application Deadline: March 1

NEWSLETTER INFO

IMPORTANT NOTICE ABOUT THIS NEWSLETTER

This newsletter is used as the primary information source for current and upcoming events, announcements, awards, grant opportunities, and other happenings in our department and around campus. Active links to additional information will be provided as needed. Material for inclusion in the newsletter should be submitted to Cheryl Pierce (pierce81@purdue.edu) **by 5:00pm on Thursday of each week for inclusion in the Monday issue.**

For answers to common technology questions and the latest updates from the EAPS Technology Support staff, [click here](#). As an additional resource for information about departmental events, seminars, etc., see our [departmental calendar](#).
