All projects, however, will include research related to impact cratering processes and products on both the Moon and Earth. Students will have the opportunity to work on Apollo samples, lunar meteorites, and the world's largest collection of terrestrial impact crater materials (~8 km drill core, ~8,000 hand samples, and ~4,000 thin sections). Applicants should be in their final 2 years of an undergraduate degree in planetary science, earth science, or a related scientific discipline. Students who are completing their undergraduate degree in Spring 2023 are also eligible to apply. Students will receive a fellowship of US\$8,000 for the summer. The internship will start no earlier than May 01 2023 and end no later than August 31 2023, with durations of 12 to 16 weeks possible. Applicants should submit a CV that includes an outline of relevant previous research experience and courses taken, a list of publications and awards, and a 1-page statement describing their interest in the topics described above. ### **REU OPPORTUNITIES – 2023 COMMUNITY SOURCED DIRECTORY**

We have launched the 2023 COMMUNITY SOURCED DIRECTORY of Research Experiences for Undergraduate - REU! This is to support students in finding powerful and well-supported Research Experiences. Furthermore - the directory includes many aspects of accessibility and identity that can help all our students. ***A new column this year is if a program has opportunities for non-US Citizens.*** [You can access v04 for Summer 2023 posted here.](#) Subsequent versions will be posted ~weekly into March. While a majority of these are NSF funded, a growing number are funded by a wide range of organizations/institutions, and have a growing range of formats.

We recommend that users review the column headers (listed below), in order to help them find programs that fit their identities and needs, and

that they can reach based on their exams / university calendars. A student in a quarter program should avoid programs that start in early May, and vice versa for students in semester programs who need to be in class in late August/September.
